Intense Technologies Limited

Enabling Digital Business

Digital era demands new business models that revolve around customer. Traditionally businesses and consumers were the two types of economic agents on which sprang many business models like B2C, B2B and B2B2C. Today connected things and Artificial Intelligence are set to be added as new economic agents. New combinations of value exchanges among all four of these will give rise to many new kinds of business models and value creation opportunities.

To provide increasingly innovative services and better outcomes for both their business and customers, enterprises across industries are building their portfolio of digital ecosystems. Businesses will lay groundwork for building their future digital value chains – and better position themselves at the heart of the emerging digital markets that will determine tomorrow's leaders in every industry.

Business strategy of evolving new business models and value chains requires a digital platform strategy to enable efficient and faster execution of ideas. Platforms are rapidly becoming the central hubs for the rich and complex digital ecosystems that companies want to offer. Adaptive digital technology platforms will help organizations develop and sell products in faster time cycles, offer complimentary services and optimize business operations.

A digital platform is a business-driven framework that allows a community of partners, providers and customers to share and enhance digital processes and capabilities or to extend them for mutual benefit.

UniServe™ NXT is an adaptive digital business platform that enables different combinations of business models that power digital business ecosystems.

Chairman's Message

C. K. Shastri
*Founder & Managing Director
Intense Technologies*

Other reasons for the healthy increase in revenues are improved margins from direct engagement with our customers, penetration into mature markets like Europe, launch of new service models and farming strategy of working closely with existing customers to expand the value proposition of our solutions.

This year has been a harbinger of launching Intense into the next league. Following are some of the highlights of the financial year:

- Our solutions are at the center of our customers' mission critical processes of enhancing customer experience. To illustrate this, the world's fastest growing 4G operator wanted to disrupt the market by registering maximum number of subscribers. They created history by onboarding 100 million customers in 170 days and they banked on the onboarding solution built on UniServe™ platform to achieve this milestone.

Dear Stakeholder,

Our revenue this year stands at 70.18 crores; we have experienced significant growth in revenues. This high growth rate was possible because customer experience was becoming a key competitive differentiator and our UniServe™ platform became the trusted partner for our customers to digitalize their customer experience lifecycle.

- The same operator relies on us to send more than 200 million alerts and notifications in a day to their customers. We are happy that our solutions stood the test of time and achieved required scale to help our customers adhere to their business objectives.
- This year we gained leadership position in India in Insurance vertical with most of the life insurance companies having implemented our solution for empowering their customers with information that is consistent, personalized and delivered through preferred digital mediums.
- It was a proud moment for us to be mentioned as the niche category of vendors in the Gartner's magic quadrant for customer communications management report of 2017.
- Globally we have strengthened our relationship with world's second largest telecom service provider and have got repeat orders from them.
- Implementation is now rapidly apace on both phases of the managed services deal with the publicly owned telecom service provider in India and we expect to go on stream by the end of 2017.

- Launch of our new platform UniServe™ NXT with advanced technological capabilities like robotic process automation, artificial intelligence and configurable API layer could not have come at a better time for us.
 - Every enterprise is trying to adapt itself to digital and our platform will help them in exploring new digital business ways and enhance customer experience.
- With all this happening at an incredibly fast pace, we are slated for the big leagues in the coming financial years. We are following the strategy mentioned below to leverage the market opportunities:
- **Farm existing accounts:** Work with our existing customers to continuously expand the value proposition of our solutions and become their strategic partners for their growth. Our annuity revenue has been growing year-on-year and has reached 46 crores INR this year. From next year we target to cover our operational expenses with annuity revenue.
 - **Expand into new geographies:** We are investing in mature markets and seeing good traction. We are continuously working towards leveraging our 21 country procurement agreement with world's second largest telecom service provider to expand into other geographies of the group company. We have seen decent success in our efforts.
 - **Target new verticals:** Our UniServe™ NXT platform makes it easy and fast for us to build new solutions. The platform is vertical agnostic, so we are exploring new revenue opportunities by building use cases for health care and smart cities initiatives of government of India.

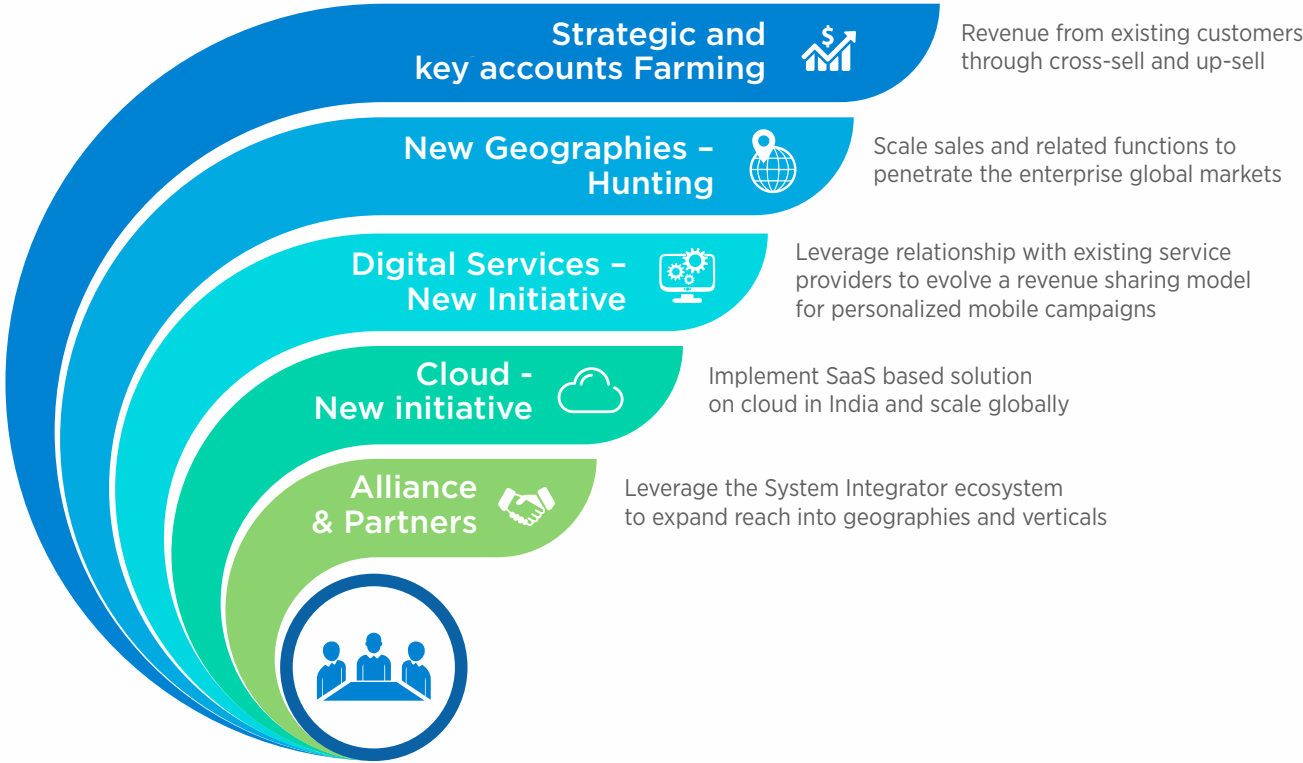

- **Launch cloud and digital services:** We have commercially launched our customer engagement solutions on cloud to ensure steady stream of revenues and penetrate the SME segment across verticals in India. We are planning to launch our solutions on cloud in Europe and Americas as well. Our digital services initiative will help service providers generate new revenue by monetizing subscriber data.
- **Strategic partnerships:** We are working closely with System Integrators and consulting firms to evolve a combined value proposition and go-to-market strategy for UniServe™ NXT platform. We are exploring synergies with other product companies and developer communities to use UniServe™ NXT platform for building applications rapidly.

With this plan and strategy in place we are slated for achieving even greater revenues next year. Our people are our greatest asset, and the passion they bring to work is our key to success. We continue to keep our attrition levels low and are investing in training and development to appropriately skill our employees for global markets.

I would like to thank all the stakeholders – shareholders, customers, partners, employees, financial institutions and banks for reposing their faith in the company.

2. Year gone by

During the year under review, your Company registered a gross revenue of ₹ 7,122.45 lakhs (previous ₹ 4,548.70 lakhs) and a Profit Before Tax ₹ 1916.72 lakhs (previous year ₹ 44.84 lakhs) on a standalone basis. On account of continuous investments being made in overseas subsidiaries, profit for this year stands at ₹ 1090.48 lakhs on consolidated basis (previous year loss ₹ 846.16 lakhs).

Good revenue growth this year is a result of our strategic approach of direct engagements with new customers, farming existing accounts to expand the scope of our solutions and launch of our solutions on cloud along with digital services initiative. The launch of our new platform, UniServe™ NXT with advanced technological capabilities to help enterprises evolve digital ways of doing business, has immense potential as we see very good traction in the market. Moreover, we were successful in getting our first order for the platform from a leading telecom service provider in Europe. UniServe™ NXT platform was recognized as the best of Future IT (Emerging technologies) by world renowned iCMG Architecture Awards panel for 2016.

We continue to push for consolidation of our presence in the Americas and are seeing gains being made in the region. Our maiden implementation at a leading data services company will shortly go on stream. We are currently pursuing exciting opportunities that have the potential to expand into a multi-country engagement. Our cloud and digital services initiatives are seeing very good traction in domestic markets. A leading non-banking financial services company trusts our customer engagement solutions on cloud.

3. Future Outlook

In the new digital era, every business aspires to go digital. Enterprises are looking to explore digital mediums to automate every aspect of their business and their success depends on the digital eco systems that they build to deliver value to their customers. UniServe™ NXT platform will help enterprises adapt digital ways and delivers value by making it easy to connect to IoT and use AI to automate business processes. Enterprises can develop custom applications rapidly and experiment with new ideas of process automation with the help of the platform. We are partnering with system integrators and consulting firms to leverage their domain knowledge and evolve a combined value proposition to take it to the market. Our existing customers are showing great interest in our innovation and are willing to work with us to evolve our platform. Implementation is now rapidly apace on both phases of the managed services deal from publicly owned telecom service provider in India and we expect to go on stream by the end of 2017 resulting in predictable revenue stream.

We are planning to launch our cloud services in global markets in phases during the next couple of years. With personalization of customer experience, faster service to customers throughout the lifecycle, and contextual customer engagement for greater loyalty becoming important differentiating factors, the need for our solutions is growing exponentially. Riding on good customer references gained in the domestic markets we plan to aggressively pursue opportunities in the global markets for our customer engagement solutions. Our annuity revenue from existing customers is growing steadily indicating the success of our strategy to farm accounts. Beginning next year our operational expenses will be taken care of by the annuity revenue and new deals can be used to expand our presence in the global markets.

MANAGEMENT DISCUSSION AND ANALYSIS

WE ARE IN GROWTH MODE

**New deals, increase in
annuity revenue and launch
of UniServe™ NXT platform**

Overview:

Good financial year 2016-17 for Intense Technologies with revenues standing at 70.18 crores INR. Following are the highlights:

Steady Flow of Deals:

- Leading private bank in India went live with our new HTML 5 based responsive and interactive e-statements for digital customer empowerment
- We are now market leaders in Insurance vertical along with telecom in India with most leading insurance companies implementing our solution to deliver personalized customer communications, reduce delivery timelines and reduce operations expenses.

- World's fastest growing 4G telecom operator is using our customer onboarding applications and achieved a milestone of onboarding 100 million customers in 170 days
- The same operator also trusts us for sending more than 200 million notifications in a day to its customers

Continued Engagement With Our Existing Customers:

- We have repeat orders from world's second largest telecom service provider to extend the scope of our existing B2B customer experience management solution to other lines of business
- We have new orders from other operating companies within the same group company for UniServe™ platform
- Most of our insurance customers have made our solution an integral part of their digital customer engagement strategy and are continuously working with us to enhance capabilities.

Our annuity revenue from existing customers has been increasing steadily reaching about 46 Crores this fiscal. We will reach a position where revenue from our annuity will amount to our operational expenses by next financial year

Update on managed services deal:

- The award of the multi-year managed-services contract last year from publicly owned telecom services operator in India, was a landmark event in the industry. It was the Operator's maiden engagement of this nature with any solutions vendor and demonstrates the faith and confidence the industry reposes on our company and the class-leading solutions that have been developed.

Implementation is now rapidly apace on both phases of the project and we expect to go on stream by the end of 2017. With that milestone completed, we look forward to the launch of billing operations and expanding the scope of our activity, thereafter. Meanwhile for us too, the learning curve in managing the nuances of the contract and also the client has been both challenging and steep. A significant services revenue opportunity has been postponed due to a Supreme Court directive to all telecom operators on Aadhaar linking of customer accounts by Feb'18. There has also been a stand-off on payment for the implementation services rendered, which we hope to settle soon. However, looking forward, this contract will add to our quarterly revenue predictability in the subsequent financial years.

Overseas Operations:

- We continue to push for consolidation of our presence in the Americas and are seeing gains being made in the region. Our maiden implementation, a leading data services company will shortly go on stream. We are currently pursuing exciting opportunities that have the potential to expand into a multi-country engagement
- In Europe, the focus has been around strengthening our presence across our existing engagements and we are happy to state that we will soon implement our UniServe™ NXT Platform in one of the operating companies in Eastern Europe
- As the economy in the MENA region is going through turmoil, our focus has been to engage more deeply with our existing clients and look for opportunities for our other solutions.

Launch Of Innovative, Adaptive Digital Business Platform UniServe™ NXT:

- Digital Business is the blue sky of new growth and learning: UniServe™ NXT Helps enterprises to adapt to digital ways of doing business by creating ecosystems of partners, customers and connected things
- UniServe™ NXT binds all our solutions into a cohesive unit to offer pre-built customer engagement solutions. Ready availability of these solutions makes it a unique value proposition
- Powerful digital platform capabilities of UniServe™ NXT platform like configurable APIs, Workflows, Robotic Process Automation, connecting to IoT for enabling digital business models.
- UniServe™ NXT platform supports two speed IT to enable digital transformation of business processes in shortest time.
- Reusable components and pre-built solutions library result in significant reduction in application development costs, enables faster time to market through automation, and builds agility by enabling easy and fast change management.
- We are working closely with leading System Integrators and Consulting firms for evolving a combined go-to-market strategy

We are in the forefront of building IPR:

We filed patents on and have multiple claims for UniServe™ NXT platform for developing applications in configurable and fast methods.

Recognition:

- Forrester published Intense Technologies as one of the “Hot and Emerging Indian Business Technology Vendor to watch in 2015”
- UniServe™ NXT platform was recognized as the best of Future IT (Emerging technologies) by world renowned iCMG Architecture Awards panel for 2016
- UniServe™ NXT Platform also topped the list of participants in the Business Innovation category at South Africa's most prestigious, Da Vinci TT100 Technology Awards in 2015

Intense Technologies has entered the coveted Gartner's Magic Quadrant for customer communications management report published in January 2017

With our solutions built on UniServe™ platform becoming inevitable part of delivering customer experience across all our engagements, we are continuously innovating to include advanced technological capabilities into the platform to improve the overall value proposition of multiple solutions built on one platform.

Industry Developments:

Gartner predicts that emerging civilization infrastructure will support 100 billion connected things, along with 8 billion people by 2030. Enterprises have to adapt themselves to digital in every aspect of their business to remain relevant. Digital business is the creation of new business designs by blurring the digital and physical worlds. Digital business involves the interaction of people, businesses and intelligent “things.”

As digital business ecosystems expand with the number of people, business and things that can dynamically connect, so does the need for organizations to support and enable these ecosystems; a digital platform is the framework for enabling and managing these ecosystems. Gartner predicts that by

2020, 90% of organizations will have at least one style of digital business platform.

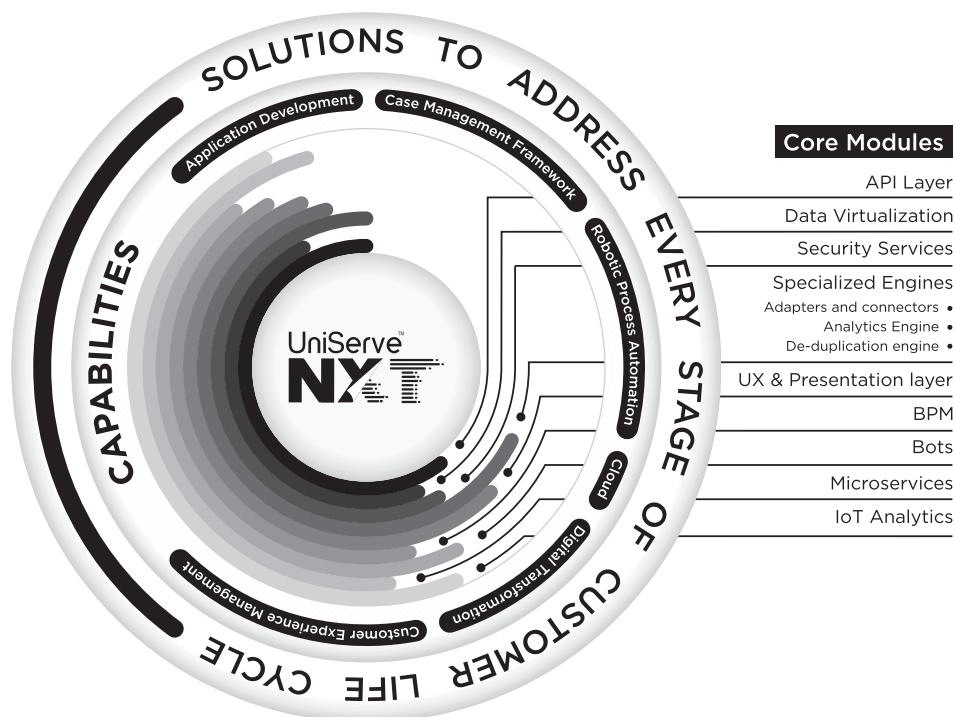

UniServe™ NXT platform is well poised to cater to this emerging need of digital platform. Our technology capabilities enable organizations to rapidly develop enterprise applications that suit the requirements of business opportunities and can be altered dynamically with the changing business scenarios. This helps organizations in enhancing customer experience, optimizing operational expenses and exploring new business models and revenue streams.

Our Value Proposition:

UniServe™ NXT platform comes with a three-layer structure, each of which addresses niche areas of enabling digital business.

- The outermost layer has pre-built business solutions that digitalize customer experience lifecycle like customer onboarding, customer communications management, etc.
- The next layer has technology capabilities like application development, Robotic process automation, Business Process Management, Digital Transformation, etc. to help CIOs implement various technology initiatives to execute business objectives
- The inner core modules of the platform are available on demand to build capabilities and solutions.

This unique structure of the UniServe™ NXT platform with layered architecture helps enterprises build flexible solutions that leverage right set of technologies to achieve business agility.

Market Potential:

Gartner predicts every business has to become digital to remain relevant. This makes a formidable case for digital platforms being an imminent need across the global markets. Apart from that, each of our pre-built solutions on UniServe™ NXT platform individually has immense potential.

- According to Markets and Markets report, Customer Identity solutions market value will hover around \$18.3B by 2019
- Customer Communication Management (CCM) market is expected to reach US\$1.06 B by 2025 -TMR Research
- Customer Experience Management market worth \$13.18 Billion by 2021 - Markets and Markets

With this kind of potential in the global markets, we are in good stead to exploit these opportunities and become a world renowned company.

Business Process Management Market worth 13.52 Billion USD by 2021. Case Management Software, an \$8 Billion Untapped Opportunity

- Gartner

Business Strategy:

Intense solutions have been tried, tested and trusted by fortune 500 companies. We have customers in more than 35 countries and have established ourselves as formidable players in the domains that we operate. We help onboard more than 2.5 million customers every day; we send more than 200 million notifications in a day. Our solutions have been built for scale and have played a crucial role in enhancing customer experience across all our implementations.

With this confidence and renewed energy due to the immense potential of our digital platform, we have devised the following strategy to maximize our revenue generating opportunities:

Farm existing customers:

- With service commoditization being the trend across verticals, customer experience is the only source of competitive differentiation
- Our solutions, with their ability to quickly digitalize and automate customer interfacing processes, are thus becoming mission critical
- All our existing customers are continuously working with us to expand the scope of our solutions. This has resulted in steady increase of our services revenue
- **UniServe™ NXT platform makes it easy for us to build new solutions that our customers demand and thus help us generate more revenue from existing customers. For example, we forayed into the new domain of case management at one of our customers with the help of UniServe™ NXT platform**

Targeting new verticals and geographies:

- **UniServe™ NXT platform is vertical agnostic and its powerful functionalities like configurable API layer to connect to IoT and AI abilities help us to expand our value proposition to newer verticals like healthcare, retail, government amongst others**
- We are working closely with leading system Integrators dominant in newer verticals and geographies to evolve a combined value proposition that we can take to market
- We are engaging with analyst firms like Gartner and TM Forum to evolve use cases on UniServe™ NXT platform to address business challenges across various verticals

Cloud launch of our solutions:

- We are seeing good traction for our customer engagement solutions on cloud; one of the leading non-banking financial company trusts our solutions to engage with their customers. Our cloud solutions will help us in generating predictable revenues every quarter and penetrating small and medium business across verticals.
- Our cloud solutions of centralized customer engagement hub and personalized, interactive customer communications are ported on popular IaaS providers like Amazon Web Services, IBM and Oracle cloud
- Our cloud offerings with pay-per-use pricing models are appropriate to achieve market penetration and enhance brand image

Launch of digital services:

- Our digital services solution helps large enterprises to monetize customer data. We bring the advertising agencies and service providers together and provide right technology platform to send personalized, consistent and contextual communication
- This business model will help all the players, as service providers will gain new revenue streams and increased customer loyalty, advertisers will be able to send targeted promotional messages and Intense will benefit from pay per click and pay per sale business model

We have plans to extend the cloud business model to MEA, Europe and USA in the future.

Our Strengths:

We have been a platform company long before enterprises realized the need for platforms to navigate the digital era. All our solutions are built on a single platform.

- Intense Technologies have been a platform company long before enterprises realized the need for platforms to navigate the digital era. All our solutions are built on a single platform. This gives us the agility to rapidly build multiple solutions that address business challenges of our customers and customize our solutions to unique customer requirements effortlessly. We are now a strong contender in the digital platform space as we have comprehensive technological capabilities coupled with pre-built business solutions ready to be used along with the platform
- We have strong domain knowledge in telecom, Insurance, banking and financial services and government verticals. Our solutions built on UniServe™ platform are designed to process huge volumes and scale based on business requirements. Our oldest implementations date back to 2003. Most of our customers work with us to expand the scope of our solutions to include various customer interfacing processes
- Solutions built on UniServe™ NXT platform cater to the end-to-end customer experience requirements. Right from onboarding the customers through physical and digital channels, engaging them with consistent and personalized communication through multiple channels, analyzing customer demographics and transactional data in near real time to empower internal stakeholders to act on insights from data and deliver superior customer experience through mobile apps and self-service portal, we have built-in solutions for digitalizing the above mentioned processes
- We have minimum dependency on third party applications and most of our modules have been built in-house. We have filed patents for some of our technologies
- We share amicable relationships with all our existing customers and they trust us with their mission critical applications. We have customers who have been using our solution for more than a decade now and have continuously worked with us to evolve the solution to their dynamic business needs. We have periodic meetings with our customers to discuss product roadmap

Our Competition:

- We compete with many global players in the domains we operate and the digital platform domain is growing rapidly with many players entering the market. Our customers often aver that they have chosen us because of the extended scope of our solutions, comprehensive data management capabilities, scalability, efficient service delivery model, domain expertise and proven track record.
- UniServe™ has been winning deals against large global players because of superior technology with compelling value in terms of functional depth and breadth of the solution. We have replaced global competitors in some of our engagements.
- However, we face intense competition in various domains of the solutions offered through our platform like customer communications management, customer onboarding, and campaign management amongst others. Our competitive differentiation of offering a modular platform that extends itself to automate most of customer interfacing processes has won us our industry recognition and customers' delight.

Some of the competitive factors in our business are:

- Our platform is focused towards the objective of enabling agile customer experience
- Award-winning platform built on modular architecture and having advanced technical capabilities that help enterprises become digital
- Best practices that have been evolved with our implementation experience across various verticals

Outlook, Risks and Concerns

Increasing need for adapting to digital business makes it imperative to have a digital business platform that helps enterprises navigate their way and explore new business models to expand reach and enhance customer experience. We are well positioned to exploit this opportunity with our UniServe™ NXT platform.

Our existing customers across geographies are our biggest bet to implement our new platform. We are working closely with our partners to take a combined value of our platform to different geographies. A leading telecom operator in Europe has decided to implement UniServe™ NXT platform for case management capabilities. This could be the anchor for subsequent opportunities in this region.

With our growing SaaS based customer engagements, we are looking forward to a reasonable degree of year-on-year revenue predictability. Our annuity revenue supporting our regular operations cost allows us to focus on our high yield growth markets.

The following are some of the key risks faced by the company and our plans to mitigate them:

Global economic situation:

Global economic situation will have significant impact on IT industry. Although a modest global recovery is projected for 2017-18, the world economy has not yet emerged from the period of slow growth, characterized by weak investment, dwindling trade and flagging productivity growth, according to the United Nations World Economic Situation and Prospects (WESP) 2017 report. We however, are seeking to build a sales pipeline in regions like Europe and USA where the economic situation is looking better and pitching cloud based models in regions like MEA.

Managing new business models:

We are in early stages of learning curve of implementing new business models like managed services. Our inexperience in directly managing large resource intensive contracts is likely to impact project schedules and customer dynamics with a risk of erosion of margins. To mitigate the risk we are recruiting experienced people with a past record of successful handling of such projects.

Supply-side risks

Since we operate in niche domains and are witnessing huge potential for our solutions from global players, it is very critical that we have resources with right skills. Smaller sized companies like us are always fertile grounds for poaching of trained talent by large IT enterprises. Non-availability of right people at the right time might impact our project delivery schedules, new version launch dates, lower market penetration, etc. We have put a strong HR process to keep existing talent motivated and for hiring talents from across the globe.

Long sales cycles

Long sales cycles are typical to our line of business as these are invariably strategic decisions and involve stringent evaluation criteria of long RFPs, POCs, demonstrations, etc. Such delays in the entire process can impact timing of predicted revenues.

Dependence on business partners

Across SAARC, MEA and South America, we are dependent on many System Integrators and partners to improve our reach to global markets and ride on their brand. While we are scaling and expanding our reach to global markets and exploring direct sales opportunities, there will be pressures on margins in the immediate term.

Global competition

Customer Experience and digital business platform is a high growth segment in the IT solutions domain. Many larger IT conglomerates are looking to acquire solutions in this domain to be able to harness the opportunity. We face competition from large multi-national companies with much larger financial and marketing muscle. We have a strategy to weave services around our solutions, and have improving revenue streams from existing customers, and also step-up our business development activity with existing engagements to actively farm for newer opportunities, and consolidate our presence even deeper.

Proprietary technology

There can be instances of misappropriation of our technological expertise or reverse engineering of our solutions. Legal standards and scope of protection in many countries may not provide adequate protection to our proprietary technology/technologies. We have filed patents for around four of our innovative IPs to avoid misappropriation.

Material developments in human resources / industrial relations, including number of people employed

Being a products company, our way of imbuing agility to our culture, attracts the best talent as they will be exposed to immense learning opportunities, key responsibilities, and faster career growth.

Human capital

Our people are our biggest assets. We are a bunch of passionate individuals who love being innovative. The products and services we deliver are of highest standard and have won the trust of our customers. We continue our endeavor to bring and hone the right talent to advance our business objectives.

Recruitment:

We have built our talent pool by recruiting students from good universities and colleges in India. We have also recruited experienced, local sales and operational talent in UK and MEA regions. We rely on rigorous selection process involving aptitude tests, technical and HR interviews to identify the right talent. The selection process continuously evolves to include new methods.

Training and development:

The competency development of our employees continues to be a key area of strategic focus for us. Keeping in view the organization strategy, global competition and changing market trends, we have launched new programs for our employees and enhanced our training efforts in multiple areas. We have a Learning Management System platform that combines teaching, hands-on learning and assessments of in-class training to provide the employees an enhanced learning experience. In addition to the class-room trainings, the Learning Management System platform allows the employees to access the training courses at their convenience and complete the assigned courses from any location – ensuring continuous learning irrespective of where the employee is stationed and also not hampering the productivity.

The main focus of our training programs is to create unique experience for learners at Intense Technologies Limited which will enhance the relevance and effectiveness of learning.

Compensation

Our people receive competitive salaries and benefits. We have a performance linked compensation program.

ANNEXURE - VIII

REPORT ON CORPORATE GOVERNANCE

In accordance with Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, the report containing the details of Corporate Governance system is as follows:

Company Philosophy on Code of Governance

Corporate Governance encompasses a set of systems and practices to ensure that the Company's affairs are being managed in a manner which ensures accountability, transparency and fairness in all transactions in the widest sense. The objective is to meet stakeholders' aspirations and societal expectations. Good governance practices stem from the dynamic culture and positive mindset of the Organisation. We are committed to meet the aspirations of all our stakeholders. This is demonstrated in shareholder returns, high credit ratings, governance processes and an entrepreneurial performance focused work environment. Additionally, our customers have benefited from high quality products delivered at extremely competitive prices.

The essence of Corporate Governance lies in promoting and maintaining integrity, transparency and accountability in the management's higher echelons. The demands of Corporate Governance require professionals to raise their competence and capability levels to meet the expectations in managing the enterprise and its resources effectively with the highest standards of ethics. It has thus become crucial to foster and sustain a culture that integrates all components of good governance by carefully balancing the complex inter-relationship among the Board of Directors, Audit Committee, Finance, Compliance and Assurance teams, Auditors and the senior management. Our employee satisfaction is reflected in the stability of our senior management, low attrition across various levels and substantially higher productivity.

The Company attaches immense importance to good Corporate Governance as formulated by the Stock Exchanges/ SEBI and other authorities in right earnest. It will be the endeavor of the Board of Directors that the Company is so governed as to maximize the benefits of all stakeholders i.e., shareholders, employees, customers, society and others.

Ethics/Governance Policies

At In10s, we strive to conduct our business and strengthen our relationships in a manner that is dignified, distinctive and responsible. We adhere to ethical standards to ensure integrity, transparency, independence and accountability in dealing with all stakeholders.

Therefore, we have adopted various codes and policies to carry out our duties in an ethical manner. Some of these codes and policies are:

- Code of internal procedures and Conduct for regulating and reporting of trading by insiders.
- Board Evaluation Policy
- Whistle Blower Policy
- Policy on Materiality of Related Party Transactions and on Dealing with Related Party Transactions
- Corporate Social Responsibility Policy
- Policy for Selection of Directors and determining Directors Independence
- Remuneration Policy for Directors, Key Managerial Personnel and other Employees .
- Policy for determining Material Subsidiaries

Shareholders Communications

The Board recognises the importance of two-way communication with shareholders and giving a balanced report of results and progress and responding to questions and issues raised in a timely and consistent manner. Shareholders seeking information related to their shareholding may contact the Company directly or through the Company's Registrars and Share Transfer Agents. In10s ensures that complaints and suggestions of its shareholders are responded to in a timely manner. A comprehensive and informative shareholders' reference is appended to this Annual Report.

Role of the Company Secretary in overall governance process

The Company Secretary plays a key role in ensuring that the Board (including committees thereof) procedures are followed and regularly reviewed. The Company Secretary ensures that all relevant information, details and documents are made available to the Directors and Senior Management for effective decision-making at the meetings. The Company Secretary is primarily responsible to assist and advise the Board in the conduct of affairs of the Company, to ensure compliance with applicable statutory requirements and Secretarial Standards, to provide guidance to directors and to facilitate convening of meetings. He / She interfaces between the management and regulatory authorities for governance matters.

Working towards People, Product, Processes and Profit

In10s works towards attaining a sustained financial bottom line along with enhancing the natural human capital and product development.

In addition, it has focused its energies on identifying specific impact areas. It endeavors to alleviate the underprivileged and marginalized sections of the society and has an active engagement with them to ensure their holistic development.

It aims to develop innovative products and processes to sustain its growth momentum. It also invests in R&D across its businesses, to serve the current and emerging needs of growth and efficiency of its businesses, and to develop new path - breaking technologies.

INDEPENDENT AUDITOR'S REPORT

To The Members of Intense Technologies Limited

Report on Standalone Financial Statements

We have audited the accompanying standalone financial statements of Intense Technologies Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2017, the Statement of Profit and Loss and the Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with provision of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these standalone financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made there under.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act.

Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments; the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on whether the Company has in place an adequate internal financial controls system over financial reporting and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2017, and its profit and its cash flows for the year ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2015 ("the Order") issued by the Central Government in terms of Section 143(11) of the Companies Act, 2013, we give in the Annexure A, a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss, and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
 - d) In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
 - e) On the basis of the written representations received from the directors as on March 31, 2017 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2017 from being appointed as a director in terms of Section 164 (2) of the Act.
 - f) With respect to adequacy of internal financial controls over financial reporting of the company and the operating effectiveness of such controls, refer to our separate report in Annexure "B".
 - g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - a. As per the information and explanations provided to us by the Company there would be no impact of pending litigations on its financial position in its financial statements.
 - b. The Company did not have any material foreseeable losses relating to long-term contracts including derivative contracts.
 - c. There has been no delay in transferring amounts, required to be transferred, to the Investors Education and Protection Fund by the Company
 - d. The Company has provided requisite disclosures in its financial statements as to holdings as well as dealings in Specified Bank Notes during the period from 8 November, 2016 to 30 December, 2016. Based on audit procedures and relying on management representation, we report that the disclosures are in accordance with books of accounts maintained by the Company and produced to us by Management. Annexure “B” to the Independent Auditors’ Report

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of Intense Technologies Limited (“the Company”) as of March 31, 2017 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

All monetary items denominated in foreign currency are reflected at the rates prevailing on the Balance Sheet date. Exchange differences, if any, arising on account of fluctuation in foreign exchange have been duly reflected in the profit and loss account in case of revenue transactions and capitalized in case of transactions having capital nature.

1.8. Investments

Investments are stated at cost of acquisition, no provision has been made towards diminution in the value of investments.

1.9. Income tax

Provision is made for income tax on a yearly basis, under the tax-payable method, based on the tax liability as computed after considering the prevailing exemptions available as per the Income Tax Act, 1961. Deferred tax is recognized, subject to the consideration of prudence on timing of difference between taxable income and accounting income that originate in one period and are capable of reversal in one or more periods.

1.10. Trade Receivables, Loans & Advances

Doubtful Debts/Advances are written off in the year in which those are considered to be irrecoverable.

1.11. Prior Period Expenses/Income:

Prior period items, includes currency translation reserve amounting to ₹ 3,959,659 on account of consolidation of accounts during the previous year.

1.12. Earning Per Share

The earnings considered in ascertaining Earnings Per Share (EPS) comprises the net profit after tax (and includes the post tax effect of any extraordinary items). The number of shares used in computing basic EPS is the weighted average number of shares outstanding during the year. The Number of shares used in computing the diluted EPS comprises weighted average number of shares considered for deriving Basic EPS and also weighted average of the number of equity shares which could have been issued on conversion of dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the year unless they have been issued at a later date. The diluted potential equity shares are adjusted for the proceeds receivable, had the shares been actually issued at the fair value (i.e. average market value of the outstanding shares.)

1.13. Employee Benefits

Contribution to schemes such as Provident Fund and Employee State Insurance Scheme are charged to profit and loss account on accrual basis. The Company also provides for other retirement benefits in the form of gratuity under the Payment of Gratuity Act, 1972 based on an actuarial valuation made by an independent actuary as at the balance sheet date. The cost of leave encashment made to employees is considered as expenses on actual basis.

1.14. Employee Stock Option Scheme

Stock options granted to employees under the stock option schemes are evaluated as per the accounting treatment prescribed by Employee Stock Option Scheme and Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014 issued by Securities and Exchange Board of India. Accordingly the excess of market value of the stock options as on the date of grant over the exercise price of the options is recognized as deferred employee compensation and is charged to profit and loss account on straight line basis over the vesting period of the options. The unamortized portion of the deferred employee compensation is shown under Reserves and Surplus.

1.15. Sales

Sale of product/service is exclusive of sales tax/service tax.

1.16. Borrowing Cost

Borrowing Cost on qualifying asset is considered for capitalization when the expenditure on qualifying asset and borrowing cost are incurred.

1.17. Segment Reporting

The Company's operations predominantly relates to software products development, hence no reportable primary segment information is made.

INDEPENDENT AUDITOR'S REPORT

To The Members of Intense Technologies Limited

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of Intense Technologies Limited (hereinafter referred to as "the Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group"), of the Consolidated Balance Sheet as at March 31, 2017, the Consolidated Statement of Profit and Loss and the Consolidated Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

Management's Responsibility for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation of these consolidated financial statements in terms of the requirements of the Companies Act, 2013 (hereinafter referred to as "the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made there under.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on whether the Holding Company has an adequate internal financial controls system over financial reporting in place and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated statement of affairs of the Group, as at March 31, 2017, and their consolidated profit and their consolidated cash flows for the year ended on that date.

Other Matters

We did not audit the financial statements of the subsidiaries Intense Technologies FZE, UAE and Intense Technologies USA, and Intense Technologies UK statements reflect total assets of ₹ 4.77 Crores at March 31, 2017, total revenues of ₹ 5.68 Crores and net cash outflows amounting to ₹ 0.12 Crores for the year ended on that date, as considered in the consolidated financial and also Intense Technologies Ltd Singapore branch of the company. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and our report in terms of sub-section (3) and (11) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries, is based solely on the reports of the other auditors. We have also not conducted audit of the Singapore Branch, and relied on the auditor's report of the subject branch.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2015 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, based on the comments in the auditors' reports of the Holding company and subsidiary companies, we give in the Annexure a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report, to the extent applicable, that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
 - b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.
 - c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss, and the Consolidated Cash Flow Statement dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.
 - d) In our opinion, the aforesaid consolidated financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
 - e) On the basis of the written representations received from the directors of the Holding Company as on March 31, 2017 taken on record by the Board of Directors of the Holding Company. None of the directors of the Group companies is disqualified as on March 31, 2017 from being appointed as a director in terms of Section 164 (2) of the Act.
 - f) With respect to adequacy of internal financial controls over financial reporting of the company and the operating effectiveness of such controls, refer to our separate report in Annexure "B".
 - g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - a. As per the information and explanations provided to us by the Company there would be no impact of pending litigations on financial position in its consolidated financial statements.

- b. The Company did not have any material foreseeable losses relating to long-term contracts including derivative contracts.
- c. There has been no delay in transferring amounts, required to be transferred, to the Investors Education and Protection Fund by the Company.

Annexure “B” to the Independent Auditors’ Report

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of Intense Technologies Limited (“the Company”) as of March 31, 2017 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

1. SIGNIFICANT ACCOUNTING POLICIES:

1.1 Basis of accounting and preparation of the consolidated financial statements

i) The financial statements of the Group have been prepared in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP) to comply with the Accounting Standards specified under Section 133 of the Companies Act, 2013, read with Rule 7 of the Companies (Accounts) Rules 2014 and the relevant provisions of the Companies Act, 2013 ("the 2013 Act") / Companies Act, 1956 ("the 1956 Act"), as applicable. The financial statements have been prepared on accrual basis under the historical cost convention. The financial statements of the subsidiary companies used in consolidation are drawn up to the same reporting date as at Intense Technologies Limited.

Accounting policies are consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in accounting policy hitherto in use. Where a change in accounting policy is necessitated due to changed circumstances, detailed disclosures to that effect along with the impact of such change is duly disclosed in the consolidated financial statements.

ii) The Accounting policies adopted in the preparation of the financial statements are consistent with those followed in the previous year.

1.2. Principles of consolidation

The consolidated financial statements have been prepared on the following basis:

i) The financial statements of the Company and its subsidiaries have been combined on a line-by line basis by adding together like items of assets, liabilities, income and expenses. Inter-company balances and transactions and unrealised profits and losses have been fully eliminated.

ii) The consolidated financial statements include the share of profit / loss of subsidiary company, which are accounted under Equity method as per which the share of profit / loss is adjusted to the cost of investment.

iii) The excess of cost to the Group of its investments in its subsidiary companies over its share of the equity at the dates on which the investments are made, is recognised as Goodwill (on Consolidation), being an asset in the consolidated financial statements. Alternatively, where the share of equity in the subsidiary companies as on the date of investment is in excess of cost of the investment of the Group, it is recognised as Capital Reserve (on Consolidation) and shown under the head 'Reserves and Surplus' in the consolidated financial statements.

iv) Minority interest in the net assets of consolidated subsidiaries consists of the amount of equity attributable to the minority shareholders at the date on which investments are made in the subsidiary company and future movements in the share of the equity, subsequent to the dates of investment.

v) On disposal of a subsidiary, the attributable goodwill is included in the determination of the profit and loss on disposal.

1.3. Use of estimates

The preparation of the consolidated financial statements in conformity with Indian GAAP requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities and disclosures relating to contingent liabilities as at the date of the consolidated financial statements and the reported amounts of income and expenditure during the year. Examples include provisions for doubtful debts, provision for employee benefits, provision for taxation, useful lives of depreciable assets, provisions for impairment, provision for contingencies, provision for warranties/ discounts etc. The management believes that the estimates used in preparation of the consolidated financial statements are prudent and reasonable.

Future results could differ from those estimates. The effects of changes in accounting estimates are reflected in the financial statements in the period in which results are known and, if material, are disclosed in the financial statements.

1.4. Accounting Concepts

The Company follows the Historical cost convention and the mercantile system of accounting where the income and expenditure are recognized on accrual basis.

1.5. Revenue Recognition

Revenue from software products is recognized when the sale has been completed with raising of invoice from the company.

Revenue from software development on a time and material basis is recognized based on software developed and billed to clients as per the terms of specific contracts.

Revenue from digitization is identified when the specific milestone is achieved and invoice is raised.

1.6. Expenditure

Expenses are accounted on the accrual basis and provisions are made for all known and expected expenses, losses and liabilities.

1.7. Fixed Assets

Fixed assets are stated at the cost of acquisition, less accumulated depreciation. Direct costs are capitalized till the assets are ready to be put to use. These costs include financing costs relating to acquisition of assets.

1.8. Depreciation

Depreciation on tangible assets is provided on written down value method over useful life of assets as per section 123(2) of the Companies Act 2013, in accordance of provisions of Schedule II.

1.9. Product Development and Research

Initial Expenditure incurred on Research and Development of products, promotional expenditure of new products and existing products have been capitalized and amortized over a period of time.

1.10. Foreign Currency Transactions

Sales made to clients outside India have been accounted based on the rate prevailing on the date of invoice. Expenditure in foreign currency is accounted at the exchange rate prevalent when such expenditure is incurred. All monetary items denominated in foreign currency are reflected at the rates prevailing on the Balance Sheet date. Exchange differences, if any, arising on account of fluctuation in foreign exchange have been duly reflected in the profit and loss account in case of revenue transactions and capitalized in case of transactions having capital nature.

1.11. Investments

Investments are stated at cost of acquisition, no provision has been made towards diminution in the value of investments.

1.12. Income tax

Provision is made for income tax on a yearly basis, under the tax-payable method, based on the tax liability as computed after considering the prevailing exemptions available as per the Income Tax Act, 1961. Deferred tax is recognized, subject to the consideration of prudence on timing of difference between taxable income and accounting income that originate in one period and are capable of reversal in one or more periods.

1.13. Trade Receivables, Loans & Advances

Doubtful Debts/Advances are written off in the year in which those are considered to be irrecoverable.

1.14. Prior Period Expenses/Income

Prior period items, if material are separately disclosed in the Statement of Profit & Loss.

1.15. Earning Per Share

The earnings considered in ascertaining Earnings Per Share (EPS) comprises the net profit after tax (and includes the post tax effect of any extraordinary items). The number of shares used in computing basic EPS is the weighted average number of shares outstanding during the year. The Number of shares used in computing the diluted EPS comprises weighted average number of shares considered for deriving Basic EPS and also weighted average of the number of equity shares which could have been issued on conversion of dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the year unless they have been issued at a later date. The diluted potential equity shares are adjusted for the proceeds receivable, had the shares been actually issued at the fair value (i.e. average market value of the outstanding shares.)

1.16. Employee Benefits

Contribution to schemes such as Provident Fund and Employee State Insurance Scheme are charged to profit and loss account on accrual basis. The Company also provides for other retirement benefits in the form of gratuity under the Payment of Gratuity Act, 1972 based on an actuarial valuation made by an independent actuary as at the balance sheet date. The cost of leave encashment made to employees is considered as expenses on actual basis.

1.17. Employee Stock Option Scheme

Stock options granted to employees under the stock option schemes are evaluated as per the accounting treatment prescribed by Employee Stock Option Scheme and Employee Stock Purchase Scheme Guidelines, 1999 issued by Securities and Exchange Board of India. Accordingly the excess of market value of the stock options as on the date of grant over the exercise price of the options is recognized as deferred employee compensation and is charged to profit and loss account on straight line basis over the vesting period of the options. The unamortized portion of the deferred employee compensation is shown under Reserves and Surplus.

1.18. Sales

Sale of product/service is exclusive of sales tax/service tax.

1.19. Borrowing Cost

Borrowing Cost on qualifying asset is considered for capitalization when the expenditure on qualifying asset and borrowing cost are incurred.

1.20. Segment Reporting

The Company's operations predominantly relates to software products development, hence no reportable primary segment information is made.

1.21. Consolidated Financial Figures

This is the first year of Consolidated Financial Figures and accordingly previous year figures are not applicable.
