

Our intensity.
Your agility.

Notify instantly with centralized hub on **CLOUD**

Connect with your audience
the right way and at the right time!

In10s[™]

**If implemented right,
a centralized engagement hub
can become one of the most
attention-grabbing
communication channels.**

CHALLENGES IN ENGAGING YOUR CUSTOMER

**Demanding customers &
winning their loyalty**

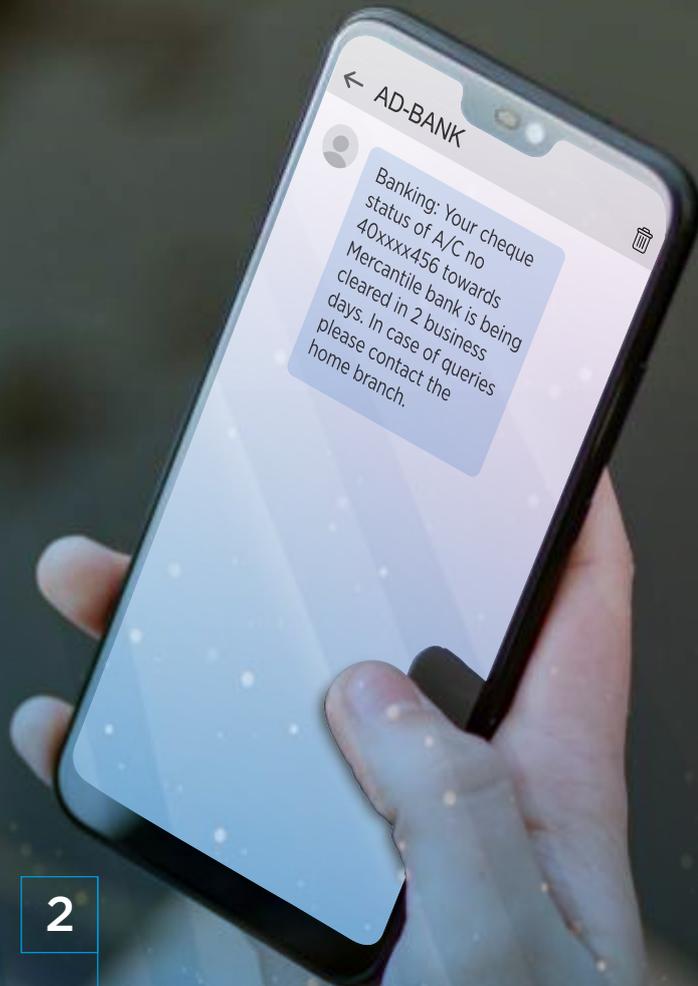

**Increasing infrastructure costs and personnel
to engage and notify them at every instance**

**Inconsistent communications,
since the systems & stakeholders are in silos**

SOLUTION NOTIFY YOUR STAKEHOLDERS IN 4 SIMPLE STEPS

1

Connect

Connects to multiple sources like databases and API source systems or take data from an excel or CSV file to streamline data

2

Design

Design vernacular messages based on the preference. Launch personalized and contextual campaigns to explore up-sell and cross-sell opportunities.

4

Monitor

E-hub also allows you to track delivery of the notifications and generate leads instantly irrespective of the channel.

Distribute

Delivers various types of notifications like OTP, payment reminders, transaction notifications (Debit & Credit Card transactions, Deposits, Compliance messages, call records etc.) threshold limits through SMS, e-mail, push, OBD, flash SMS, WhatsApp, Telegram, Signal, and Facebook Messenger.

3

Strong API layer

Integrating all your IT systems to ensure rules driven personalized notifications to customers.

Built in Analytics engine

Gain insights of customer data to deliver contextual messages.

Centralized platform

Delivers consistent communication through multiple channels across customer lifecycle.

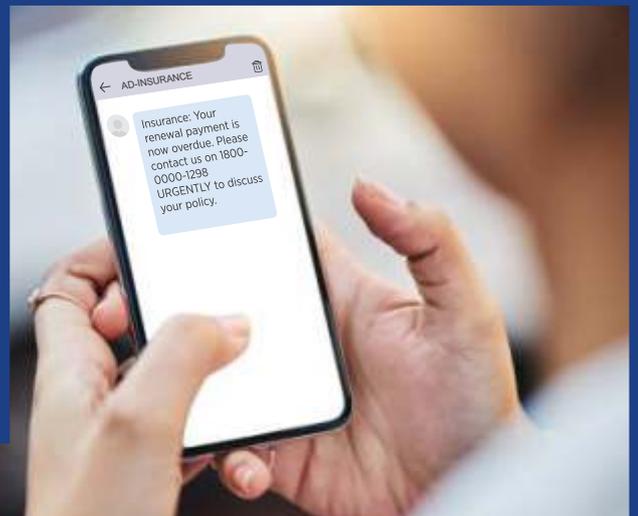

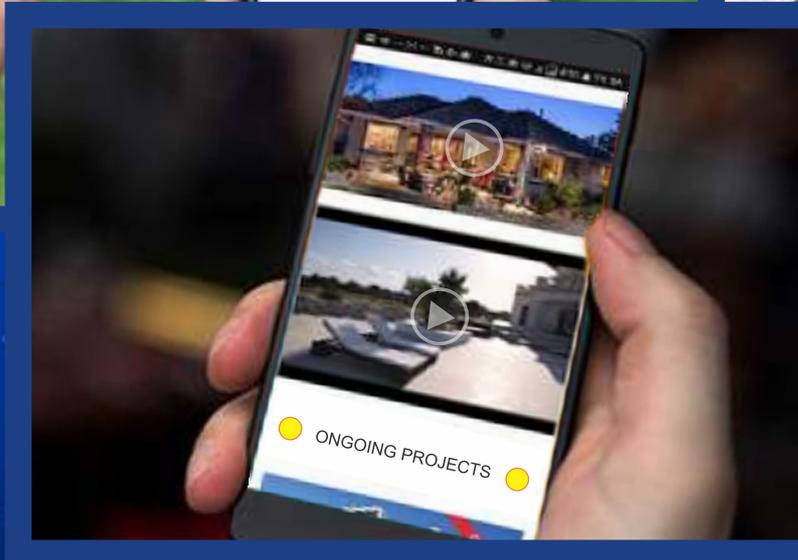

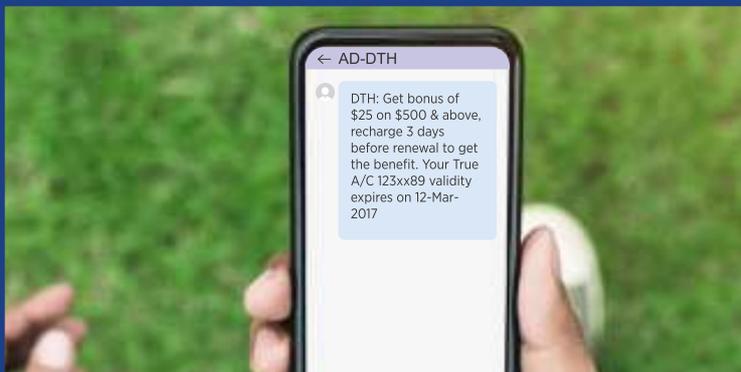

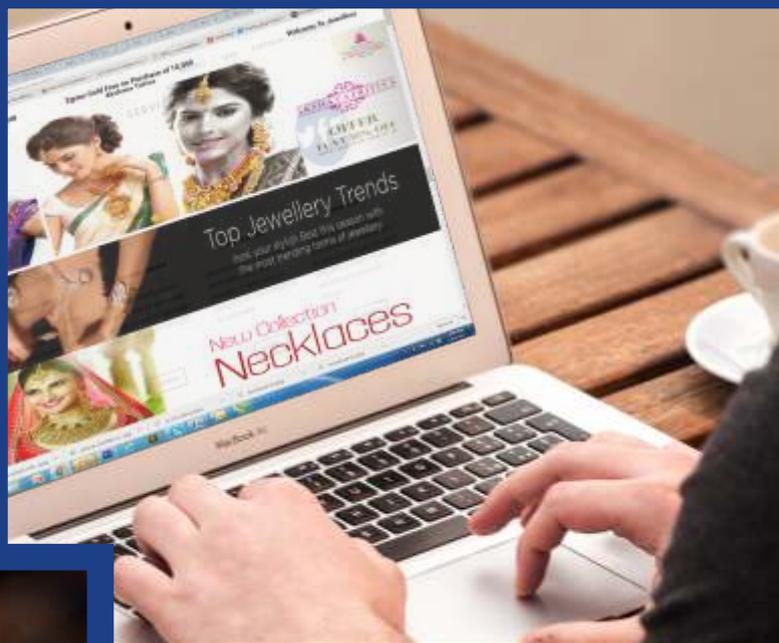

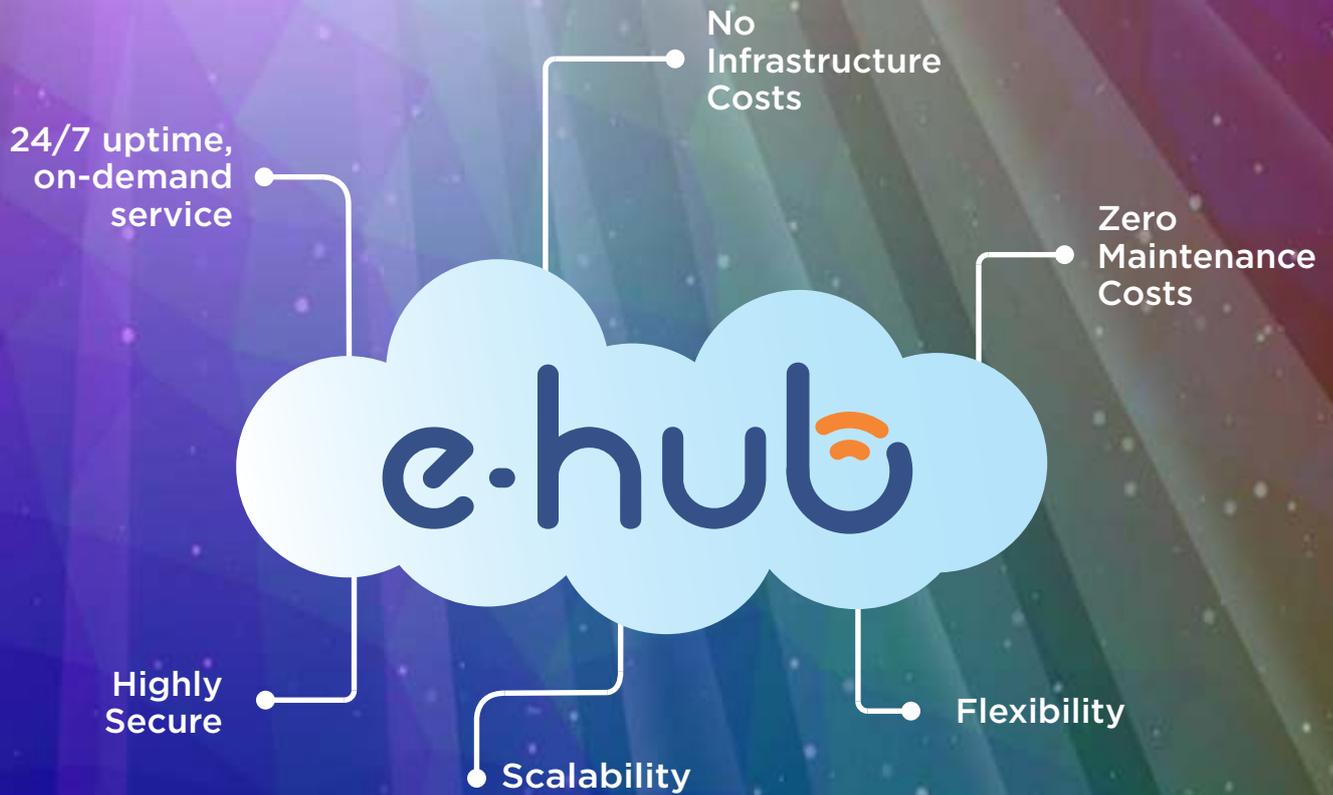

Multi-lingual support

Localization and personalization of notifications throughout customer lifecycle.

Reach Out.
