

Our intensity.
Your agility.

Intelligent Forms. Intelligent Enterprises.

“

“Technology is going to disrupt the future of work, perhaps sooner than we thought.”

-- Brian Cornell, CEO, Target

A recent study found that

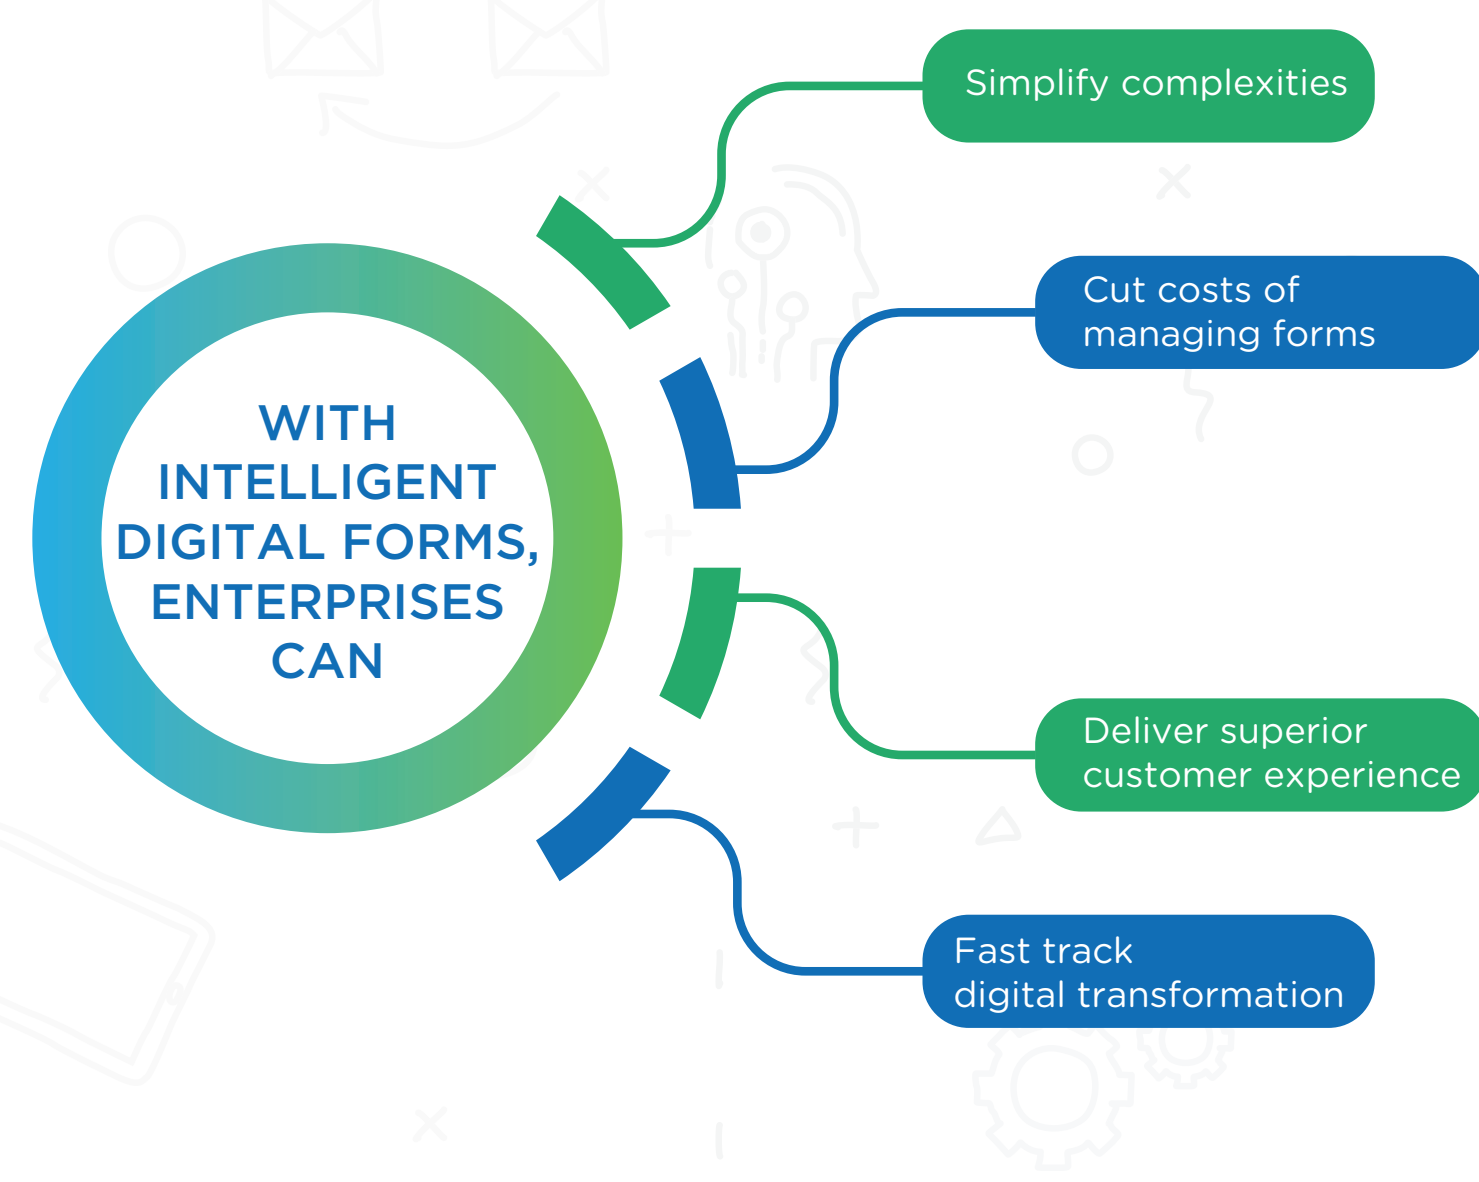

“Businesses waste 69 workdays due to inefficiency in administrative tasks. This lack of productivity also lost upwards of \$5 trillion globally for organizations.” And “It takes approximately 18 minutes to manually find a document, leading to 20 percent and 40 percent loss of working time.”

According to Gartner, “a single paper form can COST an organization \$30-\$165 to use, process and enter and 85% of business processes rely on forms.”

What’s better? All of these can be improved with Intelligent, Digital Forms Management Solution that are critical to Business enterprises

In a recent study, it was seen that on an average, “digital forms took 40% less time to complete than their paper counterparts.”

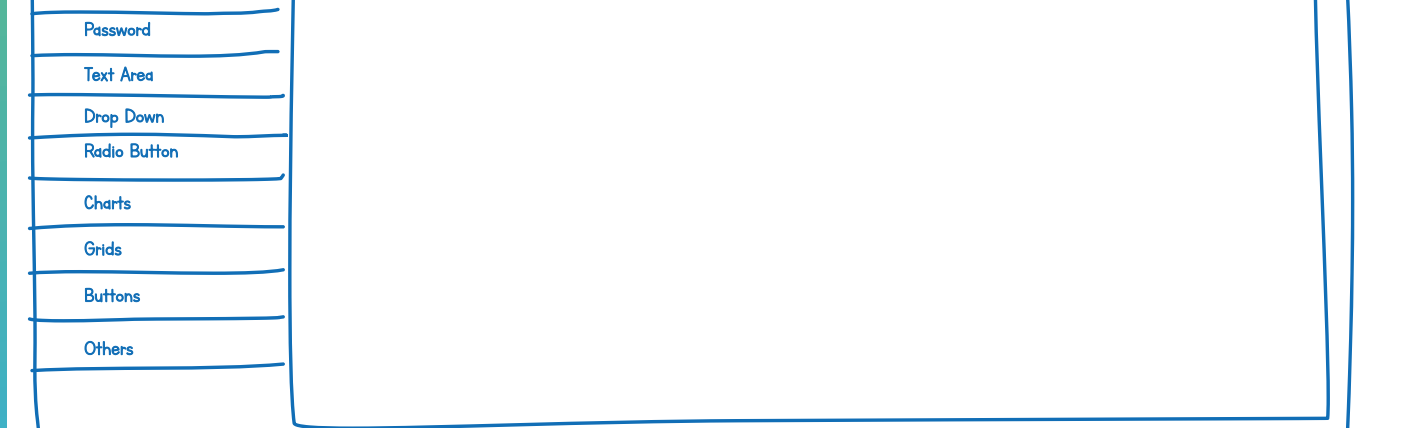

Automating routine tasks in the digital world is your answer!!!

Did you know Intelligent Digital Forms...

- Are capable enough to easily integrate into multiple web frameworks like Angular, React and Bootstrap?
- Can integrate into enterprise applications through easy code generation?
- Are Omni-channel, multi-device and multi-browser compatible?
- Available even when you are offline?

Every application needs Forms.

A UK Digital Efficiency Report

A Lightico research

Consider this

40% of millennial consumers dropped out of the onboarding process at major banks because of inefficiencies.”

20 times lower than the cost of a telephone transaction, 30 times lower than the cost of postal transaction and 50 times lower than a face-to-face transaction are digital transactions

With Intelligent Forms Management Solution banks and citizen services departments can expedite their onboarding and improve CX

- There is reduced onboarding time, increased security with compliant e-signatures and enhanced Customer Experience
- Citizens can complete their tasks online or offline, have an Omni-channel experience, and ensure compliance with government regulations.
- There is easy integration of Forms into multiple web frameworks like Angular, React and Bootstrap and enterprise applications through easy code generation thus enabling faster digital transformation.

Make the move from digital to intelligent digital and

- Design DIY forms with drag and drop capabilities
- Automate complex business processes with a comprehensive BPM engine
- Ensure compliance to data privacy regulations with built-in data security
- Enable internationalization of forms to help localization of languages
- Have no dependency of Adobe Reader
- Edit and reuse the forms for many purposes
- Generate multiple output formats like PDF, XML, HTML

Z-Forms, an innovation built on UniServe™ NXT Platform powered by AI, Low-code, BPM and Machine Learning capabilities empowers enterprises to meet and exceed all business requirements.
